## To install a jpeg file for use as desktop background on your computer:
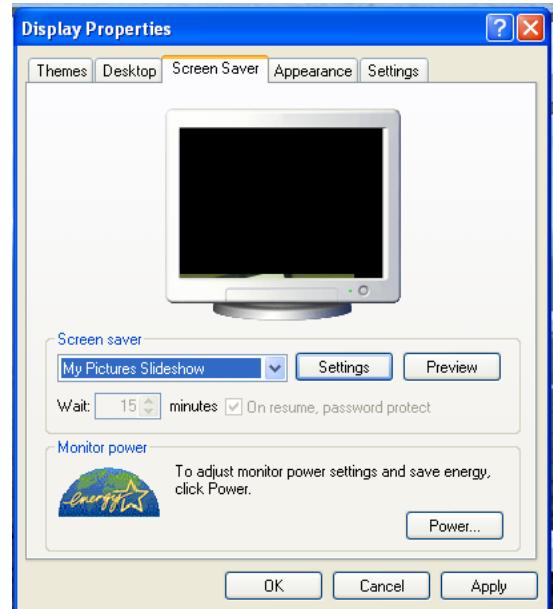

- Copy the files from this CD to a folder on the hard drive of your computer.

- From the "Start" menu, go to "Settings/Control Panel/Display." The Display Properties window (as shown below) will open.

- Under the tab labeled, "Desktop," locate the "Browse" button and click on it.

- Locate the folder in which you saved the WWII screensaver files and click on/select the graphic file you wish to use as your screensaver and hit the button labeled "Open," then the "OK" button to apply the screensaver to your desktop.

To install a series of WWII jpeg files for use as a screensaver on your computer:

• Copy the files from this CD to a folder on the hard drive of your computer.

• From the "Start" menu, go to "Settings/Control Panel/Display." The Display Properties window (as shown below) will open.

• Under the tab labeled, "Screen Saver," from the pulldown under "Screen saver," select "My Pictures Slideshow."

• Now click on the button labeled, "Settings." The "My Pictures Screen Saver Options" window will be displayed. From this window, select:
  – the frequency of picture changes
  – set the picture to be "Larger," or 100% of the screen.

• Under "Use pictures in this folder," click on the "Browse" button, then locate the folder in which you saved the WWII screensaver files and click on the folder icon, then hit the "OK" button.

• You'll be returned to the "My Pictures Screen Saver Options" window. Click on the box labeled, "Stretch small pictures" and also on the "Use transition effects between pictures" box, if you wish to have transitions.

• Hit "OK," then "OK" again to apply the screensaver to your desktop.
